Job Description

About this position

We are looking for PHP developers to build WordPress solutions for our large enterprise clients such as Google, Facebook, IndianExpress, Al Jazeera that are used by millions of people every day.

Responsibilities

➢ Deliver secure, scalable, and easy to maintain WordPress solutions using
   engineering best practices and relevant coding standards.
➢ Write test cases for all the code you develop.
➢ Write and maintain technical project documentation including
   inline code commenting, Git repo readme, and clear commit messages.
➢ Respect timelines and communicate progress proactively. We are
   a remote team, so proactive communication is very important.

Important details :

➢ Completing rtCamp's WordPress Training course before taking the online test is NOT mandatory.
➢ The course, quiz and all the materials on learn.rtcamp.com are free of charge and open for everyone to use!
